

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

District of Columbia.

In the District of Columbia, which for administrative purposes is identical with the city of Washington, there were notified between January 1 and March 24, 1913, 58 cases of smallpox. On March 26 there were 18 cases still under treatment. The disease has been of the usual mild type and to the present no deaths due to it have been registered. Several cases have occurred among employees in the Government departments with the result that extensive vaccination has been carried on among those in these departments.

Maine.

Acting Asst. Surg. Adams, of the Public Health Service, reported March 18, 1913, that 2 cases of smallpox had been notified at Thomas-

ton, Me., and 1 death from smallpox at Tenants Harbor, Me., on March 16.

On March 22 Dr. Adams further reported that on March 16, 1 case of smallpox was notified at Rockland, and on March 20, 3 cases at Rockville, 4 miles from Rockland.

Maryland—Eastport.

The State Board of Health of Maryland reported by telegraph March 26, 1913, that 4 cases of smallpox had been notified at Eastport, Anne Arundel County.

Texas—Laredo.

Acting Asst. Surg. Hamilton, of the Public Health Service, reported by telegraph March 25, 1913, that 7 cases of smallpox had been notified at Laredo.
